ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.

We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

OVERVIEW OF THE PROJECT

Sripathi Panditaradhyula Balasubrahmanyam (4 June 1946 – 25 September 2020), also referred to as S. P. Balu or SPB, was an Indian musician, playback singer, music director, actor, dubbing artist and film producer who worked predominantly in Telugu, Tamil, Kannada, Hindi and Malayalam.

Affectionately called as ‘Balu’ in his friends’ circle, SPB made his singing debut in 1966 with the Telugu movie Sri Sri Sri Maryada Ramanna, and went on to sing over 40,000 songs in as many as 16 languages including Telugu, Tamil, Malayalam, Kannada, and Hindi.

He also won the Guinness World Record for recording the highest number of songs by a singer.

He bagged six National Film Awards for Best Male Playback Singer for his songs in four different languages (Kannada, Telugu, Tamil, and Hindi), as well as 25 Andhra Pradesh state Nandi Awards for his work in Telugu cinema, apart from numerous other state awards from Karnataka and Tamil Nadu.

In addition, he also garnered six Filmfare Awards. In 2012, he received the state NTR National Award for his contributions to Indian cinema. In 2016, he was honored with the Indian Film Personality of the Year consisting of a Silver Peacock Medal.

He was a recipient of civilian awards Padma Shri (2001) and Padma Bhushan (2011). On September 25, 2020, he died in MGM Hospital due breathing difficulties, even though he recovered from COVID-19

ABOUT EOTO

My project includes HTML and CSS i.e. Hypertext markup Language and Cascading style sheet. Html allows us to create and structure section, paragraph, headings, links, images and quotes for the webpages and application.

CSS is used for defining the styles for web pages. It describes the look and formatting of a document which is written in the markup language. It provides an additional features to HTML. It is generally used with HTML to changes the style of web pages and user interface. In my project we have used text style, margin, padding, hover, background color, wrap and many more.

CSS are of three way you can use to implement CSS : Internal ,External and Inline Styles

In CSS you can assign and control the style of HTML elements on a web pages using a number of selectors. ID and Class are two of the most used CSS selectors that not only help with building the layout of the HTML document but they help in styling it. It control the layout of webpages all at once.

ADVANTAGES and CHALLENGES

Advantages:

This project helped me create webpages, use more tags. This allows carry check of syntax.

It is very useful for beginners in web field.

Utilization of templates, makes the designing a webpage easily

CSS can control the color of the text, the style of font and spacing between the paragraph this even saves time and can be easily maintained.

This project has also made me know more about S P Balasubrahmanyam sir. This has made me know about the no of songs sung by him , the awards won by him, his life style and more information on his career.

Challenges:

There are many challenges I had faced.but the major challenges I faced was

Collecting information about S P Balasubrahmanyam sir. As there are many things sir has done and not all information can be added in the project . So sorting out on the major activities was the biggest challenge.

Coming to coding part CSS has also become one of the biggest challenge I have faced . we sometimes don't realize where exactly we have to add class.

Setting up of a back button after the page has been set is also another challenge I faced.

Time management is also one of them.

All thought with all this after facing so many challenges, I had a very good experience of doing this project.

TOOLS USED

Software Requirements

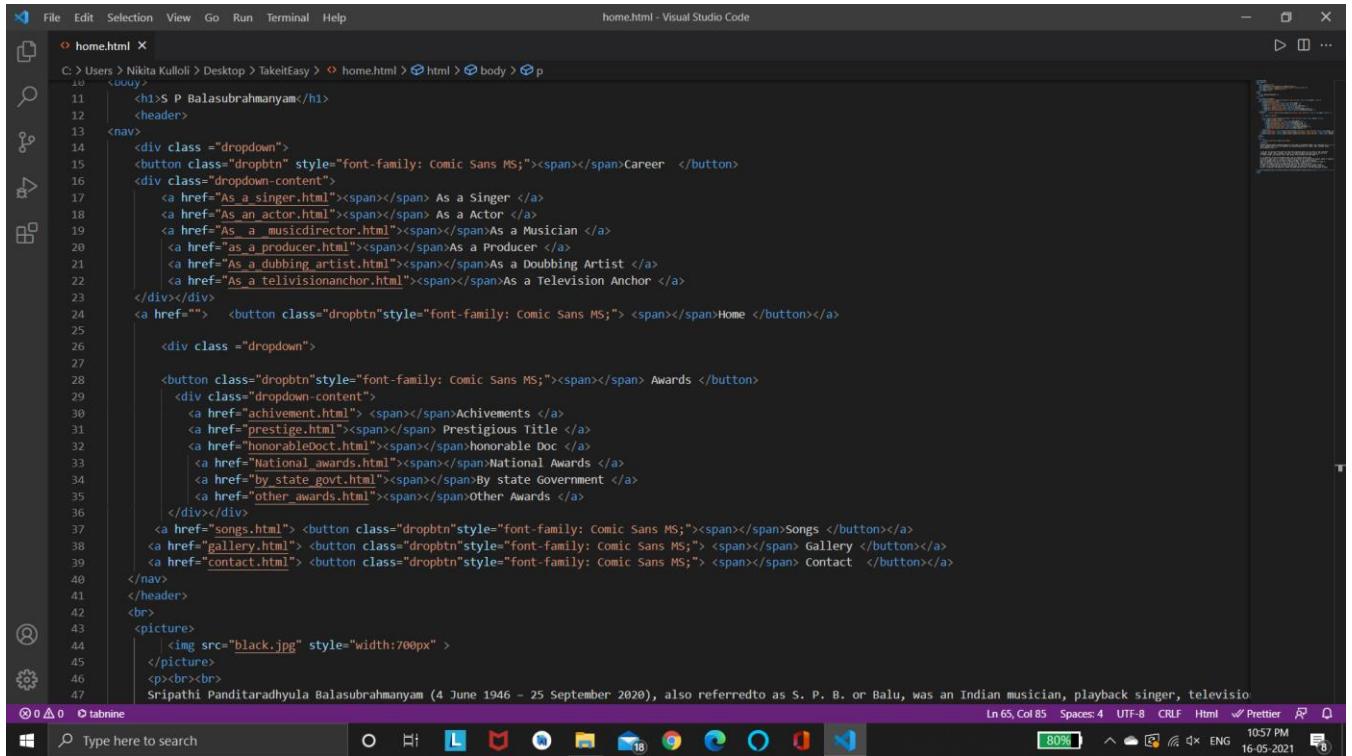

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End : HTML, CSS,JS(optional)
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of atleast 40Hz for a smooth GUI experience (optional).

The screenshot shows a Visual Studio Code interface with the following details:

- File Explorer:** On the left, showing a tree view of the project structure.
- Search Bar:** At the top, it says "home.css - Visual Studio Code".
- Code Editor:** The main area displays the content of the "home.css" file. The code defines a CSS class ".dropdown" with properties like margin, cursor, position, and display. It also defines ".dropdown-content" with properties like background-color, min-width, box-shadow, z-index, and a list of anchor tags with transitions. A specific rule ".dropdown-content a:hover span" is shown with a width of 100%. Finally, a pseudo-class rule ".dropdown:hover .dropdown-content" is defined with a border-radius of 8px and a white background-color.
- Status Bar:** At the bottom, it shows "Ln 88, Col 6" and other status indicators like "Spaces: 4", "UTF-8", "CRLF", "CSS", "Prettier", and a search icon.
- Bottom Icons:** Standard Windows-style icons for file operations like Open, Save, and Print.

SPB as a “Singer”!

A dulcet voice with an amazing range. An inflection that can capture every human emotion.
 An energy that is prolific and prodigious. Can all these attributes dwell in one singer?
 To millions who know him, SPB has all these and more. Speaking of Rafi, Lata once said that even audiences who did not speak Hindi were moved by the emotive power of his voice. The same can be said of SPB's voice. In a single concert, or in a single collection, SPB can take his listeners along with him on a rich and colourful emotional journey across states of mirth and melancholy, romance and revelry, reflection and abandon, leaving them ecstatic and breathless.
 His passionate portrayal of sublime emotions makes his audiences experience them together, uniting their souls as differences disappear and a sense of oneness prevails, which is arguably the greatest compliment, a categorical and conclusive acknowledgement of his contribution and service to Art and Mankind. Making his debut in 1966 as a singer (Sri Sri Sri Maryada Ramanna) for music director and mentor Kodandapani, SPB has sung over 35,000 songs in Telugu, Tamil, Kannada, Malayalam, Hindi, Tulu, Oriya, Assamese, Badaga, Sanskrit, Konkini, Bengali, Marathi, Punjabi and English. He holds the record for the most number of songs rendered by a playback singer. Much loved by everyone in the film industry, SPB is highly regarded by musicians and composers for his versatility and virtuosity.

SPB as a “Music Director”!

SPB has often spoken of his immense respect for the classical tradition of India and his reverence for composers. Modest and unassuming about his achievements, SPB has explored his capability as a composer without fuss and fanfare. Given his passion for music and the close and long association he enjoyed with many great music directors, SPB’s turning into a composer himself was but a short leap for Balu. He has set music and tunes for 45 films in Telugu, Kannada, Tamil and Hindi films.

Source code(as_a_producer.html)

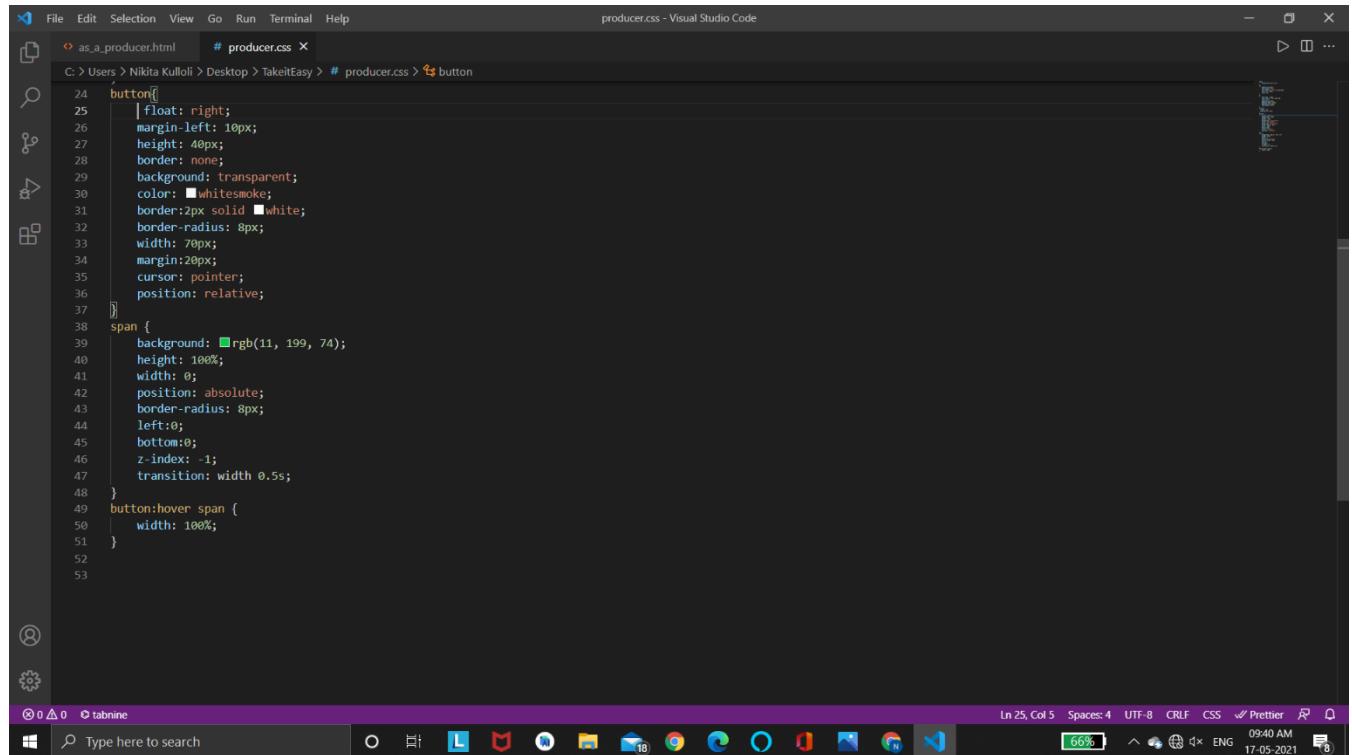

The screenshot shows the Visual Studio Code interface with the file 'as_a_producer.html' open. The code is an HTML page with a title, a back button, a producer's name, a picture, and a paragraph about their work. The code includes meta tags for charset, viewport, and a stylesheet link. A screenshot of the resulting web page is shown in the preview pane.

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta http-equiv="X-UA-Compatible" content="IE=edge">

SPB as a “Television Anchor” !

Given his long association with the Music scene in the country and his penchant for music, it was but natural that SPB should play his role as a TV Show anchor on musical shows where he could nurture musical talent. He has hosted & anchored many a TV programmes that are based on music & talent hunt shows, where he succinctly provides key inputs to participants / viewers about music and hones their skills.

Some of the TV shows that he has hosted and continues to do so:

S.NO	PROGRAMME TITLE	TV CHANNEL	LANGUAGE	NO. OF EPISODES
1	PAADUTHA TEEYAGA	ETV	TELUGU	198
2	YENDAROO MAHANIUBHAVULU	GEMINI T.V	TELUGU	73
3	PAADAALANI VUNDI	MAA T.V	TELUGU	300+
4	YEDHE THUMBI HAADUVENU	ETV	KANNADA	403
5	ENNODU PAATTU PAADUNGAL	JAYA T.V	TAMIL	150
6	SUNADA VINODINI	S.V.B.C	TELUGU	49
7	ZUMMANIDI NADAM	ETV	TELUGU	26+

Source Code(achievement.html)

A screenshot of Visual Studio Code showing the content of achievement.html. The code is an HTML document with a title, meta tags, and a body containing text about Balu's musical achievements. The interface includes a sidebar with icons, a top bar with tabs and file operations, and a status bar at the bottom.

```
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta http-equiv="X-UA-Compatible" content="IE=edge">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <link rel="stylesheet" href="achievement.css" />
    <title>Achievement</title>
</head>
<body>
    <a href="home.html" ><button ><span>Back</span></button></a>
    <h1>Achievement!!</h1>
    <p>Balu has recorded over 40,000 songs in a span of 50 years,<br> which include film songs and devotional numbers recorded<br> by various recording companies of the country.<br> It is a world record which will be soon entering into the guinness Book of World Records</p>
    <p><br>Balu has recorded 17 songs in Kannada for the composer Upendra Kumar in <br> Bangalore from 9.00 a.m. to 9.00 p.m. on February 8, 1981 which is a record.</p>
    <p><br>Balu recorded 19 songs in Tamil & Telugu in a day and 16 songs <br>in Hindi in a day for music directors Anand and Milind,<br> which is a notable achievement.</p>
</body>
</html>
```

Source Code(achievement.css)

A screenshot of Visual Studio Code showing the content of achievement.css. The CSS file contains styles for the achievement.html page, including a black background for the body, styling for the h1 and p elements, and a button style. The interface includes a sidebar with icons, a top bar with tabs and file operations, and a status bar at the bottom.

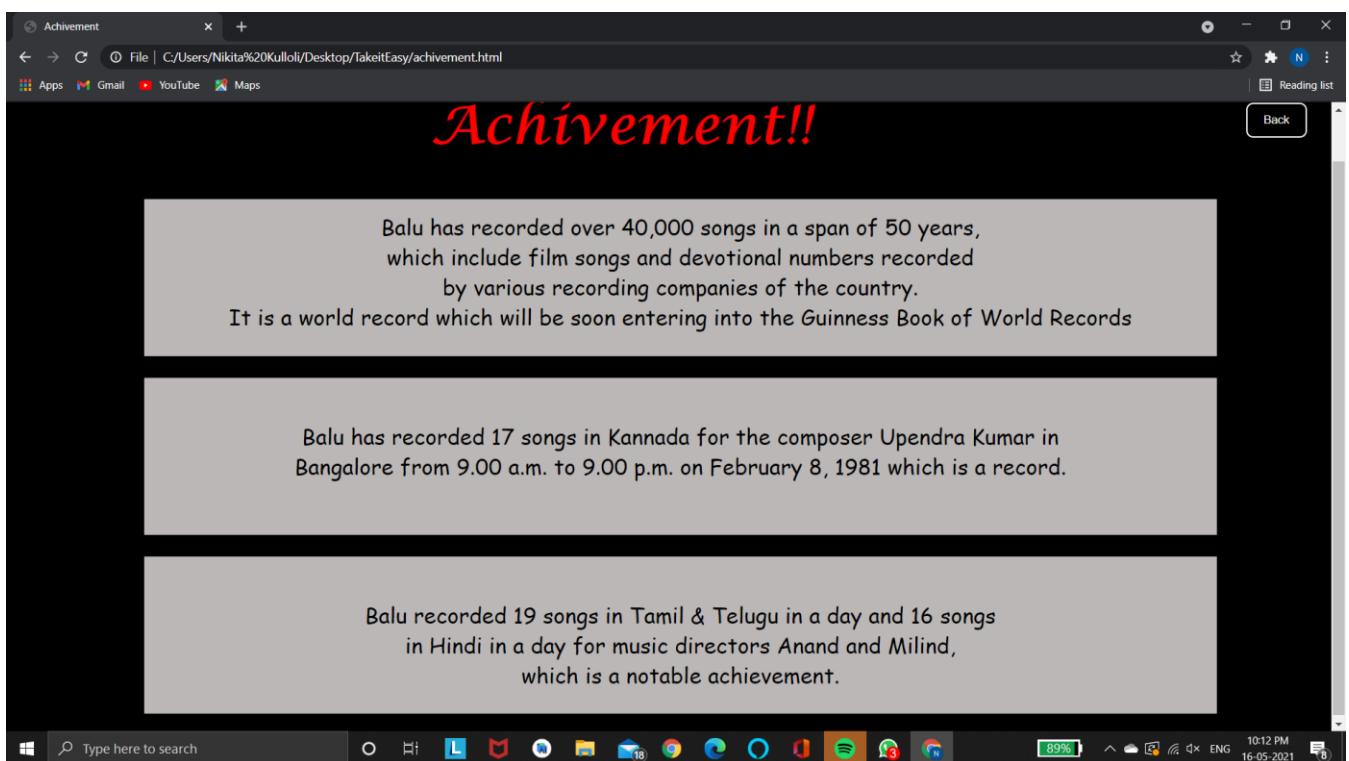

```
body{
    background-color: black;
}
h1{
    padding-top: 8px;
    text-align: center;
    font-family: Lucida Calligraphy;
    font-size: 60px;
    color: red;
}
p{
    padding-top: 50px;

A screenshot of Visual Studio Code showing the file `National_awards.css`. The code defines styles for a button, specifically targeting the `:hover` state to change the width of a `.bspan` element. The code is as follows:

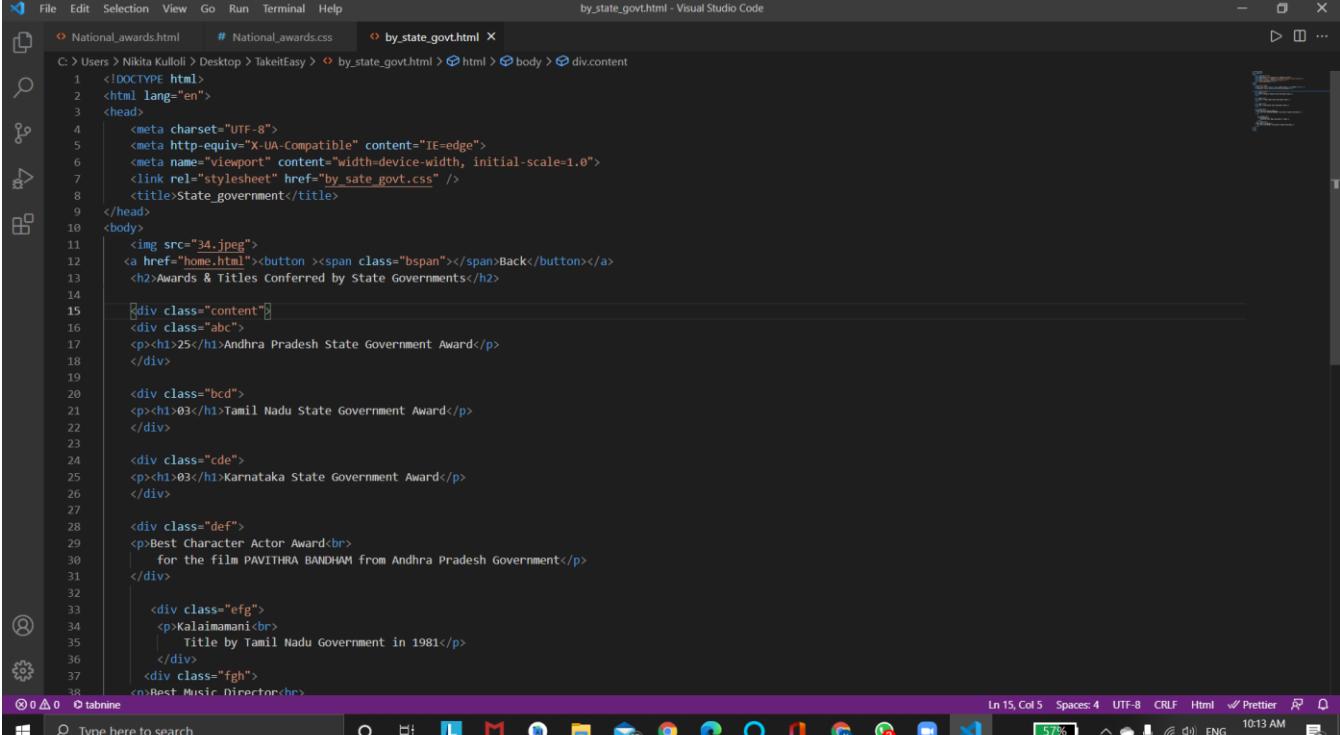

```
161     position: relative;
162 }
163 .bspan {
164     background: #rgb(11, 199, 74);
165     height: 100%;
166     width: 0;
167     position: absolute;
168     border-radius: 8px;
169     left: 0;
170     bottom: 0;
171     z-index: -1;
172     transition: width 0.5s;
173 }
174 button:hover .bspan {
175     width: 100%;
176 }
```

The status bar at the bottom shows the file path `C:\Users\Nikita Kulloli\Desktop\TakeitEasy\# National_awards.css`, line 147, column 1, and other details like spaces, tabs, and encoding.

Source Code(by_state_govt.css)

```
* { margin: 0; padding: 0; box-sizing: border-box; overflow: hidden; }
img { position: fixed; z-index: -1; height: auto; width: 100%; filter: brightness(85%); }
h2 { padding-top: 10px; font-family: lucida calligraphy; text-align: center; font-size: 40px; color: #rgb(163, 39, 163); }
.content { height: 99%; }
.abc { height: 200px; width: 230px; padding-left: 20px; padding-top: 5px; position: absolute; bottom: 300px; left: 120px; border-radius: 10px; box-shadow: 5px 10px 18px ##888888; transition: transform 0.5s; font-family: Comic Sans MS; background-color: #rgb(223, 223, 223); }
```

The screenshot shows the Visual Studio Code interface with the file 'by_state_govt.css' open. The code defines a global style for all elements and then specific styles for an 'h2' element and a '.abc' class. The '.abc' class has a height of 200px, a width of 230px, and is positioned absolutely at the bottom of its container with a left offset of 120px. It features a 10px rounded border radius and a 5px 10px 18px box shadow in the color ##888888. The transition property is set to 'transform 0.5s'. The font family is set to 'Comic Sans MS' and the background color is '#rgb(223, 223, 223)'. The code editor also shows tabs for 'by_state_govt.html' and 'tabnine'. The status bar at the bottom indicates the file is 38 lines long, with 1 line, 6 columns, 4 spaces, and is in UTF-8 encoding. It also shows icons for CRLF, CSS, Prettier, and a search bar.

```
.bcd { height: 200px; width: 230px; padding-left: 20px; padding-top: 5px; position: absolute; bottom: 300px; left: 600px; border-radius: 10px; box-shadow: 5px 10px 18px ##888888; transition: transform 0.5s; font-family: Comic Sans MS; background-color: #rgb(223, 223, 223); }
.cde { height: 200px; width: 230px; padding-left: 20px; padding-top: 5px; position: absolute; bottom: 300px; right: 220px; border-radius: 10px; box-shadow: 5px 10px 18px ##888888; transition: transform 0.5s; font-family: Comic Sans MS; background-color: #rgb(223, 223, 223); }
.def { height: 200px; width: 230px; padding-left: 20px; padding-top: 5px; position: absolute; bottom: 20px; left: 120px; border-radius: 10px; }
```

This screenshot shows the Visual Studio Code interface with the file 'by_state_govt.css' open. The code defines three new classes: '.bcd', '.cde', and '.def'. Each class has a height of 200px, a width of 230px, and a 20px padding-left. They all use the same absolute positioning with bottom values of 300px, 300px, and 20px respectively, and a left value of 600px for '.bcd', right value of 220px for '.cde', and left value of 120px for '.def'. All three share a 10px rounded border radius and a 5px 10px 18px box shadow in the color ##888888. The transition property is set to 'transform 0.5s'. The font family is set to 'Comic Sans MS' and the background color is '#rgb(223, 223, 223)'. The code editor also shows tabs for 'by_state_govt.html' and 'tabnine'. The status bar at the bottom indicates the file is 51 lines long, with 1 line, 2 columns, 4 spaces, and is in UTF-8 encoding. It also shows icons for CRLF, CSS, Prettier, and a search bar.

Source Code(others.css)

The screenshot shows the Visual Studio Code interface with the 'others.css' file open. The code defines styles for a body with black background, h2 headings, and various .row classes (1-5) with specific heights, widths, and backgrounds. It also includes styles for a .content container and a button with floating right and margin-left properties.

```
C:\> Users > Nikita Kulloli > Desktop > TakeitEasy > # others.css > body
1 body{
2     background-color: black;
3 }
4 h2{
5     padding-top: 5px;
6     font-family: Lucida Calligraphy;
7     text-align: center;
8     font-size: 30px;
9     color: whitesmoke;
10 }
11 .row1 {
12     height: 175px;
13     width: 200px;
14     padding-left: 20px;
15     padding-top: 10px;
16     color: #rgb(112, 15, 112);
17 
18     margin-left: 30px;
19     border-radius: 10px;
20     box-shadow: 5px 10px 18px #888888;
21     transition: transform 0.5s;
22     font-family: comic Sans MS;
23     background-color: #rgb(223, 223, 223);
24 }
25 .row1:hover, .row2:hover, .row3:hover, .row4:hover, .row5:hover {
26     transform: scale(1.1);
27 }
28 .container {
29     width: 100%;
30     margin-left: 100px;
31 }
32 
33 .content {
34     height: 200px;
35     width: 100%;
36     display: flex;
37     margin-left: 20px;
38 }
```

Ln 1, Col 1 | Spaces: 4 | UTF-8 | CRLF | CSS | ✓ Prettier

This screenshot shows the 'others.css' file in Visual Studio Code with additional styling for rows 3 through 5. The .row3 class adds a 40px margin-top, .row4 adds a 60px margin-top, and .row5 adds an 80px margin-top. The .rows class is also defined with an 80px margin-top. The rest of the code remains the same as in the first screenshot.

```
C:\> Users > Nikita Kulloli > Desktop > TakeitEasy > # others.css > body
1 .content {
2     height: 200px;
3     width: 100%;
4     display: flex;
5     margin-left: 20px;
6 }
7 
8 .row2, .row3, .row4, .row5{
9     height: 175px;
10    width: 200px;
11    padding-left: 20px;
12    padding-top: 10px;
13    margin-left: 30px;
14    color: #rgb(112, 15, 112);
15    margin-top: 20px;
16    border-radius: 10px;
17    box-shadow: 5px 10px 18px #888888;
18    transition: transform 0.5s;
19    font-family: comic Sans MS;
20    background-color: #rgb(223, 223, 223);
21 }
22 
23 .row3 {
24     margin-top: 40px;
25 }
26 
27 .row4 {
28     margin-top: 60px;
29 }
30 
31 .row5 {
32     margin-top: 80px;
33 }
34 
35 button{
36     float: right;
37 }
38 
39     margin-left: 10px;
40 }
```

The screenshot shows the Visual Studio Code interface with the following details:

- File Bar:** File, Edit, Selection, View, Go, Run, Terminal, Help.
- Title Bar:** gallery.html - Visual Studio Code
- Search Bar:** Type here to search
- Code Editor:** The main area displays the HTML code for "gallery.html". The code uses a grid layout with rows and columns to display multiple images. Some image sources are underlined, indicating they are links or external files.
- Left Sidebar:** Includes icons for file operations like Open, Save, Find, Replace, and Undo/Redo.
- Right Sidebar:** Shows a preview of the current file and other tabs open in the workspace.
- Status Bar:** L1 38, Col 1 | Spaces: 4 | UTF-8 | CRLF | HTML | Prettier | 1025 AM | 17-05-2021 | ENG

Snapshots

The screenshot shows a web browser window titled "Contact us" displaying a contact form. The background features a black and white photograph of a guitar. On the left side, there is a "Contact us" section with an email address and a phone number. Below it is a "Follow us" section with social media icons for Instagram, Facebook, and Twitter. On the right side, there is a "Send us a Message!" section with input fields for First Name, Last Name, Phone number, Email, and a large Message area, followed by a red "Send" button. The browser's address bar shows the file path: "C:/Users/Nikita%20Kuloo/Desktop/TakeitEasy/contact.html". The taskbar at the bottom includes the Windows logo, a search bar, and various pinned application icons.
