EOTO

20th May 2021

OVERVIEW and Details

About and Registration(also our Home page)

Make a webpage writing about EOTO(Each one teach one), the idea behind it, try putting up a very creative background to make the webpage look attractive(This will be an about page), This about page would contain two sections, about the concept and two simple buttons with the labels-" If you are a student and willing to learn, Click here" and "If you are a student and willing to teach, Click here", Two separate forms should be created to gather details regarding the same, The forms should include basic options such as Name, College, DOB, City, USN, etc(Min 5) and for willing to learn reg form-Include this option: "Subjects interested to learn(IT: TEXT)", upon clicking on submit button, another basic page has to open with the highlighted text being "Thank you, your response has been recorded, our team will get back to you regarding the same very soon", These forms can be linked using an anchor.

Contact Us

The contact page should typically include a form with the following options- Name, Email, Your Message, and Phone number, with a, submit button. The form is to be placed in the middle of the page, [optional- You can include fake or random email addresses to make the page look more realistic]

About EOTO(The concept):

Each One Teach One is a simple technique for imparting small pieces of understanding to a group—one student at a time. Each student confronts new information, learns it, and then is empowered to teach it to each other student. It allows the student to understand better and provides the learner with rare one-on-one attention and lets students select "lessons/Modules" appropriate to particular student learning styles, energy levels, and personalities. As a teaching method, it can be used with almost any subject. This helps the individual to enhance the understanding of self and the subject, as unofficially proven, it is always

that best friend who becomes the best teacher by teaching topics in a way that one can remember in the last minute, EOTO would be taking this concept much farther by building the system for it, with a community that would work for the betterment of the concept and the idea, includes analysis, maintenance, support, improvement, etc.

Tags to Remember

Keep <meta charset="utf-8">

<title> is mandatory

<p> tag is mandatory

<form> is mandatory

<quote> is mandatory

<a> is mandatory

CSS part-Although design is subjective we recommend using some tags

<background color>

<margin>

<text styles>
